

To whom it may concern,

I have had the pleasure of knowing Zumrud Rahimova for 2 years. She has been a brilliant student and a real inspiration for every single individual that she meets. I would like to take this opportunity to recommend my student for your admission program.

As her Chemistry teacher, I have had an opportunity to observe her participation and interaction in the activities and evaluate her skills. She justifies my confidence as hardworking and responsible student. During the lessons, activities – competitions, workshops, seminars and conferences, I found her as analytical thinker. Zumrud often presents the original solutions to the problems. I would rate her overall performance quite high, when compare with her mates. Along with her undeniable talent, Zumrud has always been an absolute joy to work with. She is a true team player, and always manages to foster positive discussions and bring the best out of others. Without a doubt, I confidently recommend Zumrud to join your admission program. I believe that Zumrud has tremendous potential as a student and I feel quite confident that she would be an asset to both student life and academics.

Zumrud always focuses on developing her plans and implement them, and I feel confident that she will continue to succeed in her studies and life. I appreciate her positive attitude and commitment to excellence in everything she does. So, I highly recommend Zumrud Rahimova to the graduate program. If you have any other questions, please feel free to contact me.

Sincerely,

Rauf Hasanli
